DESCRIPTION

This potential finca is located on a giant piece of land close to Santa Agnes. It has its own water well and mill, which can be used as a stable if needed. It is also ideal to make a guest studio out of it which gains with the mill an original feature.

It is a true paradise for the few who feel at home in the countryside. You could make your dream of owning your own farm come true.

The house is outdated and in need of renovation, but it can still be beautifully rebuilt and transformed into a charming home.
